PART-TIME UNIVERSITY COORDINATOR & STUDENT AMBASSADOR PROGRAM

KEKULEON RESEARCH AND TRAINING CENTER (KRTC), SIRAJGANJ, BANGLADESH

About KRTC

The Kekuleon Research and Training Center (KRTC) is an emerging academic initiative established in Bangladesh with the aim of strengthening science education and research capacity in developing-country contexts. The institute focuses on addressing the persistent gap between theoretical higher education and practical scientific competence by encouraging applied learning, early research exposure, and collaborative academic engagement. Through scholarship-based access, academic preparation programs, and community-oriented activities, KRTC seeks to expand equitable opportunities for talented students who may otherwise lack access to advanced training. By connecting education, research, and social responsibility, the initiative aims to support students in preparing for global academic pathways and future professional development.

Program Announcement

To strengthen academic outreach and collaboration with universities across Bangladesh, KRTC is establishing a University Coordinator and Student Ambassador Program. Under this initiative, two students from each university will be selected to serve as Part-Time University

Coordinators, acting as institutional representatives and helping to connect their universities with KRTC's academic and development activities.

Responsibilities

Selected coordinators will contribute to several institutional activities within their universities, including:

- Sharing information about KRTC programs, scholarships, and academic initiatives with students and faculty members.
- Assisting in the organization of seminars, academic discussions, and awareness sessions within their universities.
- Supporting the coordination of university-based scholarship examinations aimed at identifying early-career researchers through equitable access.
- Facilitating community service and volunteering initiatives among university students.
- Assisting in other institutional activities and outreach programs when required.

Eligible Departments

Students from the following departments/backgrounds are encouraged to apply:

- English
- Marketing
- Chemistry and Applied Chemical Sciences

- Pharmaceutical Sciences and Drug Development
- Polymer and Plastic Processing Technologies
- Materials Science and Engineering Applications
- Textile Testing and Quality Assurance
- Nursing and Community Healthcare

Benefits and Opportunities

The program is structured as a flexible part-time engagement, allowing students to gain valuable experience while continuing their academic studies.

Participants will receive:

- Monthly remuneration based on working hours and level of involvement.
- Official certification for volunteering and community service activities.
- Recognition for participation in academic seminars, institutional programs, and international events.
- Opportunities to build academic networks and leadership experience.
- Access to professional development and academic engagement activities.
- Free IELTS preparation course at a later stage for participants preparing for international academic pathways.

How to Apply

Interested candidates should submit the following documents:

- Upload your CV/Resume (PDF format)
- Upload a 1-page Motivational Letter explaining why you want to join this program

Purpose of the Program

This initiative aims to create a nationwide academic network connecting universities with KRTC's educational, research, and community development activities. By empowering students to act as coordinators and ambassadors, the program promotes academic collaboration, early research engagement, leadership development, and equitable access to opportunities within the higher education ecosystem.
